

**JOINT ANNOUNCEMENT**  
January 2022

Alpha House and MONBAT are proud to announce a unique and exclusive partnership agreement between both businesses for the first time.

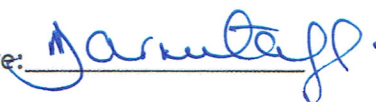

MONBAT is one of Europe's leading, highly regarded, and established battery manufacturers with over 60 years' experience of manufacturing and supplying a wide range of high-quality lead-acid, and lithium iron products and associated services in over 70 countries worldwide.

Alpha House is a UK based company specialising in providing consultative intelligent power solutions, across multiple market and industry sectors throughout the United Kingdom and Ireland. Alpha House has established a strong reputation for providing innovative, power infrastructure solutions and services to industry leading businesses, that has resulted in significant growth and expansion over the last several years.

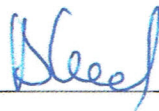

Under the terms of this partnership, Alpha House shall operate as MONBAT's exclusive manufacturing partner, service provider and distributor throughout the United Kingdom, to facilitate the expansion of products and services to existing and future customers and emerging markets alike.

This agreement combines the provision of Alpha House's breadth of services combined with the extensive range of MONBAT's high quality VRLA industrial AGM batteries, MVR, High-Rate UPM, High Temperature HVR and High Cycling HVR Carbon batteries. This facilitates the broadening of our unified collaboration, to deliver exceptional services and products.

We look forward to servicing our customers while meeting the demands of developing markets throughout the United Kingdom and Ireland, with the long-term success and growth that this historic partnership enables.
